Explanation of Differences between Actuals and Estimates.

RECEIPTS.—*Land Revenue and Assessed Taxes.*—The apparent short collection under these heads is owing to the demand not falling due till the latter months of the year.

Forests.—Periodical sales not yet effected.

Law and Justice.—In the item Court Fees there appears a falling off in the realisations.

DISBURSEMENTS.—As stated in the previous return, the excess in the items "Commissioners of Divisions" and "Inam" under Land Revenue, "Pay of Officers and Judicial Commissioner's Court" under "Administration and Law and Justice," is owing to furlough and acting allowances.—The increase under Mysore Local Force is attributable to gratuities paid to discharged Siledars.—The apparent savings under other heads are explainable to various charges adjusted but not yet disbursed.

Dated Bangalore, 12th April 1874.

POLITICAL PENSIONERS—WHEN NOT APPEARING IN PERSON AT TREASURIES.

Circular No. 1113, *dated* 28*th April* 1874.

The following orders of the Government of India are circulated for the guidance of the Civil Pension Paymaster and the District Treasury Officers in Mysore.

H. HUDSON,
Dy. Accit. General in Mysore.

From the Officiating Secretary to the Government of India, To the Comptroller General—Foreign Department, Finance, No. 212, F. dated Fort William, 6th April 1874.

I have the honor to acknowledge the receipt of your letter No. 8082, dated 11th February last, enquiring what rules should be observed in the payment of pensions to Political pensioners who do not appear in person to receive them.

2. In reply, I am directed to state that His Excellency the Viceroy and Governor General in Council does not desire to make any change in the present practice in regard to the payment of Political pensions. In cases in which Political pensioners do not appear in person to receive payment of their pensions, if the disbursing officer entertains any doubt which he has no convenient means of removing, he should refer the case to Government through his immediate superior for orders. Payment of the pension, however, should not be suspended pending the result of such reference.

DECREE MONEY AND OTHER JUDICIAL DEPOSITS REALIZED IN TALUK COURTS.

To—The District Treasury Officers and Amildars.—Circular No. 1122, *dated* 11*th June* 1874.

To prevent misapprehension which is reported to prevail among some Amildars, the Deputy Accountant General has the honor to point out that Circular No. 284, dated 12th May 1865, on the subject of decree money and other court deposits, is no longer in force, and that Amildars' Courts are no longer permitted to retain such monies till the close of the month and then pay them into the Treasury. They should be paid in on the day of receipt. A remittance book will be kept for the purpose in which the decree money or other judicial deposits will be entered and signed by the Amildar, who will see that the money is immediately paid into the Treasury, that the receipt of the Shroff is given in the proper column of the remittance book, and that the amount is credited in the Treasury deposit account.

"4—LOCAL REMITTANCES."

To—The District Treasury Officers, Circular No. 1125, *dated* 12*th June* 1874.

From the statements of balances standing on 31st March 1874, under the head 4—Local Remittances, which have been furnished by District Treasury Officers, it is evident that that head of the accounts has been employed by the Amildars to shew a large number and variety of items which do not properly belong to it, but to deposits and some to other heads.

2. Instructions on this subject were issued to all the Treasuries in Circular No. 233, dated 21st October 1864, which appearing to have been in many instances disregarded, the Deputy Accountant General has the honor to request that District Treasury Officers will personally examine the details of the head in question so as to restrict it in future to the following items only:—

On receipt side (1) District Treasury cheques credited in current month, but not paid in the same month by the Taluk Treasury.

(2) Remittances in specie or notes credited in current month, but charged in a previous month either in District or taluk accounts.

Disbursement side (1) District Treasury cheques charged by a taluk in current month, but credited by the District Treasury in a previous month.

(2) Remittances in specie or notes charged by District Treasury or a taluk account in the current month, but credited in the following month.

511

3. All other items, which do not belong to some service or other head, must invariably be shewn under "Deposits" and included in the Deposit Register of the Treasury concerned. This rule will apply to items realized in one Taluk Treasury but due to or payable at another, or the District Treasury. All such items must be entered as deposits, and the District Treasury Officer should take immediate steps, on receipt of the taluk accounts in which they appear, to expedite the payments in cash or cheques as may be necessary.

REVISED FORM OF EXECUTIVE ENGINEER'S PASS BOOK.

To—District Treasury Officers, Circular No. 1126, *dated* 19*th June* 1874.

I have the honor to intimate the despatch by Anche to your address of two copies of a new form of Treasury Pass Book for your transactions with the Executive Engineers, of the Roads and Tank Division respectively, in connection with credit orders only, and to request that you will be good enough to substitute the form for the one now in use in your Treasury from 1st July 1874. The Executive Engineers have been supplied with copies by the Controller, Public Works Accounts, by whom the form has been prepared in consultation with this Office. The Executive Engineer's copy should be written up as usual whenever sent to the Treasury, and returned to him. The object of the form is to afford a ready means of ascertaining the balances remaining of letters of credit at the District and the several Taluk Treasuries at which funds have been placed at the request of the Executive Engineers. Your monthly certificates of credit should exhibit each balance separately to admit of their being verified by the Executive Engineers.

The book provides one column for the District Treasury and three for Taluk Treasuries in each page, and if funds be allotted to more than three, it will be necessary for you to enter the allotments and the corresponding payments in the next half page. The space in the form should be economized by close and neat writing.

Proposed Bye-Law for the removal of glandered horses beyond Municipal Limits.

6. Proposed Bye-Law for the removal of glandered horses, &c., beyond Municipal limits.

All parties whether residing temporarily or otherwise within Municipal limits, who may have any of their horses or other cattle belonging to them attacked with glanders, or any disease, epidemic, or otherwise, of a dangerous or infectious character, will, on receipt of notice from the President, remove them at once beyond Municipal limits. Any persons having horses attacked with glanders or any other epidemic disease not complying with the above, will render themselves liable, on conviction before a Magistrate, to a penalty not exceeding one hundred rupees for the first, and after a first conviction rupees two hundred for the second and each succeeding offence.

Resolved.—That, instead of the Bye-Law proposed, the Chief Commissioner be moved to adopt measures to introduce Madras Act No. II of 1866 into the Province of Mysore, or to introduce the Act into the Town and Cantonment of Bangalore only, as the Chief Commissioner may think fit.

539

Chief Commissioner's remarks, viz., that Bye-Law No. 2—48 will remain inoperative in the absence of any penalty for its breach.

7. Read letter No. 934—177, dated 6th instant, from the Secretary to the Chief Commissioner, General Department, returning the proposed Bye-Law No. 2—48, for the prohibition of persons afflicted with loathsome or infectious disease from vending articles of food in bazars, and pointing out that the law in question will remain inoperative in the absence of any penalty for its breach.

Resolved.—That the addition to the proposed Bye-Law, as suggested by the Chief Commissioner, be made, and which Bye-Law will now therefore read as under.

No. 2—48.—Persons afflicted with loathsome or infectious disease are prohibited from vending or exposing for sale any articles of food, either in the markets or bazars of the Cantonment, under a penalty, on conviction before a Magistrate, to a fine not exceeding one rupee for the first and a like sum for each succeeding offence.

Quality of the Beer sold at Bangalore.

8. Read letter No. 89, dated 6th May 1874, from the Commissioner, Nundydroog Division, forwarding for an expression of opinion, copy of a communication from the Secretary to the Chief Commissioner, relating to the quality of the beer sold at Bangalore.

Read also letter from the President, Municipal Commission, to the address of the Deputy Commissioner, in reply to the above communication.

Resolved.—That these letters be recorded.

Establishment of an Asylum at Bangalore for incurables.

9. Read letter No. 1579—D. 213, dated 30th May 1874, from the Secretary to the Chief Commissioner, forwarding copy of a communication to the Commissioner, Nundydroog Division, relating to the establishment of an asylum at Bangalore for incurables.

Resolution.—The Board consider that a separate institution for the reception of incurables is unnecessary, as they believe that the present Friend-in-need Society is the most fitting and proper refuge for this unfortunate class. It appears to the Board that should the present premises be found not to be sufficiently large, no difficulty would be experienced in extending them, as also in increasing the present subordinate establishment to aid these objects, as also to assist in defraying the extra expense that would occur for the increased number of inmates, the Board are prepared with the sanction of the Chief Commissioner to allot from their funds an annual grant-in-aid to the institution of rupees 250.

Water-Supply to Bangalore.

Read letter No. 1189, dated 11th June 1874, from the Secretary to the Chief Commissioner of Mysore, in the Public Works Department, communicating that a yearly grant of one lac rupees for five years has deen sanctioned by the Government of India for Bangalore and Mysore water-supply projects and that the details in connection with the Bangalore project will be furnished as soon as the decision of the Chief Commissioner has been obtained.

Resolution.—To be recorded.

Grounds on which Payment of an Allowance of five per cent has been sanctioned to the Sar Amin and to Mr. Arnold.

11. Read letter No. 1653—308, dated 2nd June 1874, from the Secretary to the Chief Commissioner, requesting a report as to the grounds on which payment of an allowance of five per cent to the Sar Amin and to Mr. Arnold has been sanctioned.

Resolution.—The above letter having been read, the Board would beg respectfully to submit that the grounds on which the proposed allowance to the Sar Amin and the Supervisor of the Distillery was sanctioned were that they considered that as the duties these officials were called on to perform entailed a large amount of work and trouble foreign to their regular duties, it was due to them that they should receive some consideration for their services.

No. 4. *The 7th July* 1874.

With a view to avoid the clerical labor at present entailed upon the Offices of the Commissioners and Deputy Commissioners, in communicating to the subordinate offices concerned, the circular orders from time to time issued by the Judicial Commissioner, it is proposed regularly to publish in the Official Gazette, in English and Kanarese, such circular orders as may hereafter be issued for the information and guidance of all officers concerned, who are hereby requested to give due effect to the instructions therein contained.

CIRCULAR ORDER.

No. 5. *The 7th July* 1874.

The instructions contained in paras 2 and 3 of this Office Circular No. 337—18, dated 16th May 1867, requiring the transmission to the District Magistrates of copies of the proceedings of preliminary enquiries held by Amildars in cases triable by the Court of Session, are hereby withdrawn.

J. D. GORDON,
Judl. Commissioner.

Police Department, Circular No. 873—26, *dated 7th July* 1874.

In the taluk of————a complaint of robbery was preferred to the Killedar, who proceeded to the spot, which was both near his own station and the boundary of an adjacent taluk.

2. Being of opinion that the scene of crime was in the limits of the adjacent taluk, he declined on that ground to take up the case, although by prompt action he might have arrested the accused and facilitated detection of the case.

3. Such conduct is entirely mistaken and highly reprehensible. Police Officers will bear in mind that, under the new rules, the Police is "*for purposes of prevention and detection of crime*" to be deemed a "Provincial" force, the parties located in Districts and Taluqs working together with concurrent jurisdiction and reciprocal interests.

4. It may happen that a Police station is situated at the extremity of a taluk, and that many villages of another taluk are much nearer to it than to any Police station in their own taluk.

5. In such cases arrangements will be made by District Officers that "for purposes of ordinary patrol" such villages should be visited by the Police of the nearest station without reference to taluk boundaries.

6. Taluk Magistrates will inform the Village Police and others that, on occurrence of any cognizable offence, information of it should be given to the *nearest* Police station *as well as* to that of the taluk in which the place may be situated, and Police Officers of all stations in the vicinity who may receive early intimation of the occurrence should at once take prompt measures as may be necessary in the case.

7. The case will then, as soon as convenient, be handed over to the Police of the taluk in which the scene of occurrence is situated, to be dealt with in due course by the Magistrate having jurisdiction.

Circular No. 878—29, *dated 8th July* 1874.

The Judicial Commissioner's attention has been directed to the large number of cases referred by the Police in "B" form to the Magistracy as false, or, as cases first described to them as cognizable, but which, on investigation, turn out to be non-cognizable, and in which therefore there are no grounds for them to take action.

2. There are doubtless many such cases; complainants may, with a view to avoid the stamp required before a complaint in a non-cognizable case can be entertained by a Magistrate, or, under the influence of feelings of excitement exaggerate the circumstances of a complaint to invoke the immediate aid of the Police, and it is only right such cases should be referred and the action of the Police stayed.

3. On the other hand, there is often a tendency on the part of the Police to throw discredit on the truth of a case, in which detection appears to be difficult, or, for other reasons unpalatable to them to prosecute, and if the reports in "B" form are unhesitatingly accepted by Magistrates, a great and undue power would be thereby given to the Police; hence, it is very desirable that complainants should know that the power of *quashing* complaints does not vest in the Police.

4. It is therefore ordered that a Magistrate, before striking off (as unworthy of credit) any complaint reported in "B" form by the Police, will issue a notice to the parties complaining, to the effect that the Police have stated reasons why the complaint should not be entertained, and fixing a day when he will be prepared to hear any grounds the complainant may have to shew against these reasons. If the complainant does not appear, *or*, appearing, fail to satisfy the Magistrate that the complaint should be entertained, the case can be struck off, or otherwise dealt with on its merits.

Tenders are invited for the collection, by contract, of dry and dead sandal-wood trees and old sandal roots left in the ground, in any or all of the three Districts of Kadur, Chitaldroog and Shimoga (or in any of the taluks thereof,) in the Nagar Division.

2. All charges connected with the digging out and uprooting of trees, removal of white wood, and of carriage to the koti, to be borne by the successful contractor, who must make his own arrangements for all such work.

3. All trees must be uprooted. The contractor will not be required to cut the wood up into billets, but shall remove all bark, and white and sap-wood, leaving however a layer of white wood, quarter of an inch in thickness on the heartwood, all round.

4. No green or growing trees shall be felled.

5. Should the contractor fell any green or growing trees, he shall be liable to a fine of Rs. 20, (to be at once paid down) for every kandi or part of a kandi, (560 lbs) so felled and delivered, and further shall not receive any payment for such weight of green sandalwood. He shall also be liable to punishment under the Forest Rules should he fell or damage any green or growing sandalwood trees in the jungles.

6. The tenders must clearly specify the taluk or taluks or District or Districts in which the contractor proposes to work; the number of kandis, (each weighing 560 lbs and prepared as laid down in clause 3,) that he engages to deliver before the 28th February 1875; and the rates to be paid to him per kandi of 560 lbs.

7. Should the contractor fail to deliver, by the 28th February 1875, the full quantity of sandalwood contracted for, he shall pay on that date to the Deputy Conservator of Shimoga a sum of rupees 40 for every kandi short of the proper number; and shall be required to deposit on the day that his tender may be accepted, a sum equal to one-fourth of the total value of his contract, which sum shall be forfeited to the Government of Mysore in the event of his not felling and preparing ten per cent of the quantity contracted for by him, within 30 days of his signing his contract bond, which bond shall then also become null and void in that case.

9. The Department will not pay any higher rates than those contracted for in the contract bond for any sandalwood over and above the quantity contracted for, but will receive, store and pay for at the contract rates any excess weight up to ten per cent of the whole quantity contracted for in each contract bond.

10. All expenses connected with the drafting, stamping and registering of contract bonds shall be borne by the successful contractor or contractors.

11. All applications (made under the foregoing conditions) should be addressed to the Deputy Conservator of Forests, Shimoga, who will deal with them, and to whom is reserved the right of refusing any tender without assigning any reason to the applicant.

Tenders are invited for the collection, by contract, of dry and dead sandal-wood trees and old sandal roots left in the ground, in any or all of the three Districts of Kadur, Chitaldroog and Shimoga (or in any of the taluks thereof,) in the Nagar Division.

2. All charges connected with the digging out and uprooting of trees, removal of white wood, and of carriage to the koti, to be borne by the successful contractor, who must make his own arrangements for all such work.

3. All trees must be uprooted. The contractor will not be required to cut the wood up into billets, but shall remove all bark, and white and sap-wood, leaving however a layer of white wood, quarter of an inch in thickness on the heartwood, all round.

4. No green or growing trees shall be felled.

5. Should the contractor fell any green or growing trees, he shall be liable to a fine of Rs. 20, (to be at once paid down) for every kandi or part of a kandi, (560 lbs) so felled and delivered, and further

shall not receive any payment for such weight of green sandalwood. He shall also be liable to punishment under the Forest Rules should he fell or damage any green or growing sandalwood trees in the jungles.

6. The tenders must clearly specify the taluk or taluks or District or Districts in which the contractor proposes to work; the number of kandis, (each weighing 560 lbs and prepared as laid down in clause 3,) that he engages to deliver before the 28th February 1875; and the rates to be paid to him per kandi of 560 lbs.

7. Should the contractor fail to deliver, by the 28th February 1875, the full quantity of sandalwood contracted for, he shall pay on that date to the Deputy Conservator of Shimoga a sum of rupees 40 for every kandi short of the proper number; and shall be required to deposit on the day that his tender may be accepted, a sum equal to one-fourth of the total value of his contract, which sum shall be forfeited to the Government of Mysore in the event of his not felling and preparing ten per cent of the quantity contracted for by him, within 30 days of his signing his contract bond, which bond shall then also become null and void in that case.

8. The contractor shall also find two good securities to be approved of by the Forest Officer of the Range for the due payment to the Government of any sums which may be due to it under clauses 4 and 7, should it at any time be necessary to enforce the penalties therein laid down.

9. The Department will not pay any higher rates than those contracted for in the contract bond, for any sandalwood over and above the quantity contracted for, but will receive, store and pay for at the contract rates any excess weight up to ten per cent of the whole quantity contracted for in each contract bond.

10. All expenses connected with the drafting, stamping and registering of contract bonds shall be borne by the successful contractor or contractors.

11. All applications (made under the foregoing conditions) should be addressed to the Deputy Conservator of Forests, Shimoga, who will deal with them, and to whom is reserved the right of refusing any tender without assigning any reason to the applicant.

FINANCIAL DEPARTMENT.

AMILDARS' COURT CHEQUES FOR AWARDS TO COMPLAINANTS.

To—The Deputy Commissioners of Districts. and District Treasury Officers, Circular No. 1137, *dated* 25*th July* 1874.

The Deputy Accountant General has the honor to intimate the despatch to the Deputy Commissioners' address of books each containing 100 forms of Court cheques, which are to be forwarded for the use of each of the Amildar's Courts. They are to be used only in cases when the period allowed for appeal having elapsed, payment has to be made by the Amildar out of a sum which he has credited to Government, on account of an award to a complainant, under Section 209 or 308 of the Criminal Procedure Code, or Section 31 of the Court Fees' Act.

2. The Amildars will note that, as provided for in the Deputy Accountant General's Circular No. 1017, dated 8th July 1873, in cases appealed to a higher Court, such Court on passing orders will issue a cheque for any amount required to be paid out of a fine or award money credited to Government.

MONEY TO BE RECEIVED OR PAID AT TREASURIES ON THE DAY THE DOCUMENTS ARE REGISTERED IN THE ACCOUNT BRANCH.

Circular No. 1138, *dated 25th July* 1874.

It is apprehended that persons coming to the Treasury to receive or pay money do not always complete the transaction on the same day, but, having had the documents registered in the Treasury Account Branch, go away and return another day. As this practice causes discrepancies between the accounts of the Account and Cash Branches of the Treasury, the Deputy Accountant General has the honor to request that District Treasury Officers will issue positive instructions to the Treasurer not to receive or pay any money except on documents which have been checked and registered in the Account Branch *on the same day*.

2. The Treasury Accountant should also be directed to warn all persons, that they must pay in or receive money on the day in which they come to him for the purpose of registering the documents, and, should they come on a subsequent day; that they will have to go through the form of registry, &c., a second time.

3. The Treasury Officer will be good enough to put up a notice to the above effect in both the Account and Cash Branches.

4. These orders are applicable to the Taluk Treasuries also, and Amildars will give strict directions as above to their Nagdi Gumastas and Shroffs, putting up a notice to the same effect in the Taluk Cutcherry.

The Hymns of the Rig-Veda, in the Samhita and Pada Text, by Professor F. Max Müller, M. A., in two Volumes.—*Price, Rs.* 24 ; *packing and postage, Re.* 1—12.

***The Rig-Veda, the oldest book of Indian literature, has very properly been made one of the principal class-books for those who study Sanskrit in the Schools and Colleges in India,—and though at present a scholar-like knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammars and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar, who cannot construe the hymns of the ancient Rishis of his country.—*Extract from Preface.*

Circular No. 1125—45, *dated* 18*th August* 1874.

The Judicial Commissioner observes that the provisions of Section 114, Criminal Procedure Code, do not seem to be understood.

2. They contemplate that first intimation-reports be sent to the Magistrate *before* the Police go to the spot, the object being both to expedite the report of such cases to the Magistrate, and also that the latter may have the purport of the complaint in its first aspect without any such coloring as it might acquire through a police report of investigation.

3. It is not necessary that the investigating officer should delay to proceed to the spot until the report be despatched. This matter can be attended to by the station-writer, the report being merely a copy of the substance of the complaint already reduced to writing, and under Section 112, Criminal Procedure Code, entered in the station-diary.

4. In grave cases it should always be sent *by express.*

5. These instructions will be carefully attended to by Killedars and station-house officers.

SEASON REPORTS FOR THE MONTH OF JULY 1874.

Kadur District.

Weather.—There was a heavy and good fall of rain in all the taluks of the District during the month, and the young crops in some places were rotten from the excessive showers.

The following table gives the readings of the thermometer and rain-fall as recorded at the observatory at District head-quarters for this and the previous month as contrasted with the month of July of last year:—

June 1874.—*Thermometer* at 9·30 A. M. 71°8 at 3·30 P. M. 74°22. *Rain*, 7 inches 65 cents.
July " " " 70°20. " 70°20. " 8 " 1 "
July 1873. " " 75°2 " 70°11. " 3 " 75 "

Crops.—In the Maidan taluks where the rain-fall was light, the sowing of "*Hingar*" crops, such as dod ragi, black and green-grams, castor-oil, jolam, &c. was carried out in some parts, and in others the young crops under growth are doing well in localities where the ground was prepared to receive seeds, it was found impossible to conduct the sowing operation from the thickness of weeds grown thereon in the intervening rainy days. In Malnad the transplanting of paddy was carried out in fields on high grounds, while in those on lower grounds it was entirely given up from the excess of water. The growth of cardamoms, sugar-cane and coffee is satisfactory. The rot called "*kolerega*" on supari still continues to rage in the estates of the Koppa Taluk.

Health.—The health of the District has not been on the whole very good. Fever, small-pox and dysentery continue in the Kadur Taluk.

The total deaths from small-pox number 11, against 11 in the previous month, and the total of deaths from all causes is set down at 320, against 279 last month and 395 in July 1873.

Cattle.—Murrain of the "*kaljvra*" "*bayijvra*" and the "*Dorjvda*" types continues in the Taluks of Vastara and Banavar. The loss from the attack of wild beasts is set down at 101 throughout the District, against 212 in June 1874. The total mortality from all causes amongst cattle is set down at 2,215, against 2,292 in last month and 1,980 in July 1873.

P. KRISHNA RAO,

***The Rig-Veda, the oldest book of Indian literature, has very properly been made one of the principal class-books for those who study Sanskrit in the Schools and Colleges in India, and though at present a scholar-like knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammars and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar, who cannot construe the hymns of the ancient Rishis of his country.—*Extract from Preface.*

The Hymns of the Rig-Veda, in the Samhita and Pada Text, by Professor F. Max Müller, M. A., in two Volumes.—*Price, Rs.* 24; *packing and postage, Re.* 1—12.

***The Rig-Veda, the oldest book of Indian literature, has very properly been made one of the principal class-books for those who study Sanskrit in the Schools and Colleges in India, and though at present a scholar-like knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammars and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar, who cannot construe the hymns of the ancient Rishis of his country.—*Extract from Preface.*

To—The Deputy and Assistant Conservators of Forests in charge of Ranges, and District Treasury Officers,
Circular No. 1156, *dated 5th September* 1874.

The Deputy Accountant General has the honor to intimate having despatched by Anche to the address of the Forest Officers in charge of Ranges, and the District Treasury Officers, a Pass Book for entering on the one hand credit-orders granted by this Office in favor of Forest Officers, and on the other the cheques paid against them at the Treasury. The Pass Books should open with the balance of credit-orders remaining unpaid on 1st September current.

2. The Forest Officer's copy of the Pass Book should be sent to the District Treasury immediately after the close of each month, and the District Treasury Officer will be good enough to compare it with the Treasury Pass Book and to verify the entries with his initials, noting any discrepancies.

3. The Pass Book provides one column for the District Treasury and four for Taluk Treasuries for the purpose of shewing the amount of credit allotted to each and the payments made against the respective allotments, in order to indicate the balance of credit available at each Treasury from time to time. If funds be distributed among more than four taluks, it will be necessary to enter the additional allotments and corresponding payments in the next page of the form.

4. District Treasury Officers will be careful to verify the figures in the column "Daily Total posted to Cash Book" with their initials, after seeing that they are duly entered in the daily cash book.

The Hymns of the Rig-Veda, in the Sanhita and Pada Text, by Professor F. Max Müller, M. A., in two Volumes.—*Price, Rs.* 24; *packing and postage, Re.* 1—12.

***The Rig-Veda, the oldest book of Indian literature, has very properly been made one of the principal class-books for those who study Sanskrit in the Schools and Colleges in India, and though at present a scholar-like knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammars and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar, who cannot construe the hymns of the ancient Rishis of his country.—*Extract from Preface.*

Proposed Transfer of Military roads to the Municipality with the annual allowance allotted for the same.

13. Read letter dated 25th instant from Mr. A. Kupsami Modaliar, Municipal Commissioner, No. 4 Division, suggesting that application be made to the Madras Government for the transfer of the roads in the Cantonment, now maintained by them, to the Municipality with the annual allowance allotted for the same.

Resolved.—That the Chief Commissioner be addressed with a view to his moving the Madras Government to make over to the charge of the Municipality all the roads without distinction within municipal limits, together with the annual maintenance allowance that has hitherto been provided for their up-keep. In submitting this resolution the Commissioners would wish to disclaim any desire or intention to draw invidious comparisons, or to offer any opinion as to whether the station roads have been maintained hitherto in a relatively more efficient manner by the Municipality or by the Military authorities ; but they are strongly impressed with the conviction that the division of responsibility at present existing as regards these roads is greatly to be deprecated, and they consider that for many reasons it is highly desirable that all the roads within municipal limits should be placed under one controlling authority, and which authority, they believe, ought most appropriately to be vested in the Municipality.

The above resolution having been put to the vote is carried, 8 votes for, and 2 against, the resolution.

Proposed Bye-Law for the removal of glandered horses, &c., beyond Municipal Limits.

16. Read letter No. 2653—566, dated 8th July 1874, from the Secretary to the Chief Commissioner in the General Department, informing that the Chief Commissioner considers that a Bye-Law will adequately meet the requirements for the removal of glandered horses beyond municipal limits.

Proposed Bye-Law for the removal of glandered horses, &c., beyond municipal limits.

All parties whether residing temporarily or otherwise within municipal limits, who may have any of their horses or other cattle belonging to them attacked with glanders or any disease, epidemic or otherwise of a dangerous or infectious character, shall be required to give immediate notice of the same to the President, Municipal Commission, who on receiving notice as aforesaid shall as soon as possible have the animal or animals examined by a competent veterinarian, and if satisfied that the removal of the animal or animals is necessary, the owner will be required to remove the same at once beyond municipal limits.

Any persons having animals attacked with glanders or any other epidemic disease not complying with this Bye-Law will render themselves liable on conviction before a Magistrate to a penalty not exceeding one hundred rupees for the first, and after a first conviction rupees two hundred for the second and each succeeding offence.

The Rig-Veda, the oldest book of Indian literature, has very properly been made one of the principal class-books for those who study Sanskrit in the Schools and Colleges in India, and though at present a scholar-like knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammars and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar, who cannot construe the hymns of the ancient Rishis of his country.—*Extract from Preface.*

Season Report of the Kadur District for the month of August 1874.

Ither.—The rain-fall during this being lighter than in the previous month it was very beneficial for the growth of the crops, and of much aid to the cultivators, affording a relief from incessant rain.

The following table furnishes the readings of the thermometer and rain-fall as recorded at the Observatory at District head-quarters for this and the previous month as contrasted with the month of August last year.

July—1874	*Thermometer* at 9·30 A. M. 70·20,	at 3·30 P. M. 70·20,	*Rain*, 8 inches	1 cent.
August „	„ „ 72·24,	„ 74· 3,	„ 1 „	99 cents.
„ 1873	„ „ 75·16;	„ 73· 4,	„ 2 „	18¾ „

Crops.—In the Maidan taluks, the "Hingar crops" sown in the previous month as also at the commencement of the monsoons are in a satisfactory and thriving condition, and some crops such as gidrugi, coriander, &c., are being harvested. In localities where heavy fall of rain rendered the cultivation altogether impossible in the previous month, the transplanting of paddy and sugar-cane is being carried out in this month. The growth of cardamoms, sugar-cane and coffee is satisfactory. The rot called "*Kolerogu*" on supari still continues to rage in the gardens of the Koppa Taluk.

Health.—The health of the District has not been on the whole very good. Fever existed to some extent in Banavar, and small-pox in the Taluks of Chikmagalur, Vastara, Kadur and Tarikere to a small extent. The total deaths from small-pox in this amount to 6, against 11 in the previous month, and the total of deaths from all causes is set down at 319, against 320 in the preceding month and 340 in August 1873.

Cattle.—Murrain of the *kaljvara* "*bayijvara*" types continues in the Vastara Taluk. The loss from the attacks of wild beasts is set down at 145 throughout the District, against 101 in July 1874. The total mortality from all causes amongst cattle amounts to 1,244, against 2,205 in last month and 1,571 in August 1873.

***The Rig-Veda, the oldest book of Indian literature, has very properly been made one of the principal class-books for those who study Sanskrit in the Schools and Colleges in India, and though at present a scholar-like knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammars and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar, who cannot construe the hymns of the ancient Rishis of his country.—*Extract from Preface.*

***The Rig-Veda, the oldest book of Indian literature, has very properly been made one of the principal class-books for those who study Sanskrit in the Schools and Colleges in India, and though at present a scholar-like knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammars and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar, who cannot construe the hymns of the ancient Rishis of his country.—*Extract from Preface.*

CIRCULAR ORDER.

No. 14.

The 2nd October 1874.

The Judicial Commissioner hereby notifies for the information of all Criminal Courts, that when compensation has been awarded to be paid out of the amount of fine imposed upon a prisoner, the same should be paid at once upon recovery of the fine, subject only to the limitation, contained in the last para of Section 308 of the Criminal Procedure Code, in regard to the period of payment when the sentence is liable to appeal or revision. The payment should never be affected by the consideration that a portion only of the fine has been recovered. In such a case, the part of the fine which has been levied should go as far as may be towards the payment of the compensation; when such part is less than, or equal to, the amount of compensation awarded, the whole of it should be paid in part or full payment of the compensation; when it is greater, the surplus, after full payment, should alone be credited to Government.

Compensation must be regarded as a first charge to be met from the fine, and any rateable division, between Government and the party entitled to compensation, of part of the fine levied, is in my opinion altogether objectionable.

The 12th October 1874.

With reference to the Chief Commissioner's Notification No. 180 of the 23rd ultimo, vesting Mr. T. R. A. Tambu Chetti, Judicial Assistant of the Bangalore District, with the powers of a Judicial Assistant also in the Kolar District, the following arrangements for the despatch of business have been made, and are hereby notified for general information.

During the absence of the Judicial Assistant from the Head Quarters of the Bangalore and Kolar Districts, the Sheristadars of both the Courts are empowered to carry on the routine work of their respective Courts. They are also empowered—

(*a*) to receive plaints, petitions and applications for execution, &c., which parties may wish to present;

(*b*) to attend to all requisitions from other Courts for the service of summonses and other processes;

(*c*) to attend to the requisitions from other Courts for the transmission of records or other papers;

(*d*) to furnish authenticated copies of judgments, decrees and orders that may be applied for by the parties;

(*e*) to grant the usual deposit orders to enable parties or pleaders to pay into the Treasury money in satisfaction of decrees or orders; such deposit orders will be signed by the Sheristadars "For Judicial Assistant;"

(*f*) to set down for hearing, on dates which may be fixed in communication with the Judge, all plaints and petitions and applications received during the absence of the Judicial Assistant, on which no judicial orders could be passed without giving notice to the other side;

(*g*) to collect batta required for the issue of summonses and other processes, and—

(*h*) to attend to every thing which would ensure the plaints, petitions and applications aforesaid being brought on for hearing as soon as the Judicial Assistant returns to Head Quarters or to the stations in which he is permitted to hold a Circuit Court.

All correspondence which may be carried on by the Sheristadar in the disposal of the routine work above detailed, and all processes of the nature specified in Judicial Commissioner's Circular No. 2049—106, dated 18th January 1870, may be signed by the Sheristadar; but the words "By Order of the Court" should invariably precede the signature of the said Ministerial Officer.

Parties who may be desirous of paying subsistence money in advance on account of defendants incarcerated in the Civil Jail by order of the Court, are directed to make the payments to the Officer in charge of the Jail under the provisions of Section 276, Civil Procedure Code.

The Judicial Assistant will hold Court once a week at Bowringpet, *i. e.* every Saturday, for the disposal of emergent applications that may be preferred to him, and such other business as may be conveniently disposed of at that place. The small causes arising within the Municipal limits of the town of Kolar, as also the execution cases connected therewith, will be disposed of by the Judicial Assistant at Kolar. The regular cases and appeals, and other execution cases of that District will be disposed of either at Kolar, Bowringpet or Malur on such dates as may be arranged by the Judicial Assistant to suit the convenience of the parties. Due notice being given of the date and place at which the Court will be held.

Judicial Commissioner.

STAMP VENDORS' SECURITIES AND STOCK TO BE EXAMINED.

Circular No. 1163, *dated* 13*th October* 1874.

A case having recently occurred where a Stamp Vendor's security has been found to be defective and insufficient, the vendor himself having absconded without accounting for the Stamps which were in his possession, the Deputy Accountant General has the honor to request that the Deputy Commissioners of Districts will direct the Treasury Officers to examine the securities of all Stamp Vendors who

sell Stamps on the credit system, whether at the District Head Quarters or in the Taluks, and to report any cases of an insufficient or doubtful character for the Deputy Commissioners' orders. The securities of the Vendors in taluks should be lodged in the respective District Treasuries.

Treasury Officers and Amildars are reminded that the balance of Stamps in the hands of Vendors should be examined half yearly in October and April as required by Circular No 708 of 7th September 1869, in order to ascertain that they are intact; and any Stamps that appear to be held by Vendors unnecessarily and for which there has been no regularly recurring demand, should at once be withdrawn. This examination of Vendors' securities and stock balances should be carried out immediately by Treasury Officers and Amildars, in the present month of October, and the prescribed certificates attached to the stamp returns for September.

REGISTRATION DEPARTMENT.

To—The District Registrars and Sub-Registrars of Taluks, Mysore and Coorg, Circular Memorandum No. 6 of 1874—75, dated the 14th October 1874.

The Inspector General of Registration has the honor to publish for the information and guidance of the Registering Officers in Mysore and Coorg, the following Resolution of the Government of India, dated 10th July 1874, relative to the construction of Clause 7, Section 18, in connection with Clauses 2 and 3, Section 17, of the Indian Registration Act VIII of 1871.

2. It will be seen that in order to determine whether a document relating to immovable property of 100 rupees and upwards may be treated as registrable *optionally*, it should first be considered whether it is an instrument of the description given in Clauses 2, 3, of Section 17, namely :—

(Clause 2nd).—An instrument (other than a will) which purports or operates to create, declare, assign, limit, or extinguish any right, title, or interest, to or in such immovable property.

(Clause 3rd).—An instrument (other than a will) which acknowledges the receipt or payment of any consideration, an account of the creation, declaration, assignment, limitation, or extinction of any such right, title or interest.

3. The Government resolution points out that a document which does not in itself create, declare, assign, limit or extinguish any right, title or interest, but is only preliminary to another document having that effect, may be registered optionally.

H. HUDSON,
Inspector General of Registration,
Mysore & Coorg.

Extract from the Proceedings of the Government of India in the Home Department, (Public), No. 51—1906 under date Fort William, the 10th July 1874.

Read a letter from the Bombay Government, No. 873— R. 28, dated 17th February last, referring to that Government's resolution of the same date upon the Registration Report for 1872—73, and soliciting a decision as to the interpretation to be put on Clause 7 of Section 18 when read with Clauses 2 and 3, Section 17 of Act VIII of 1871. (The Registration Act.)

Resolution.—The question is whether, with reference to documents affecting immovable property of the value of Rs. 100 and upwards, there is any conflict between the provisions of Clause 7, Section 18, of the Registration Act, and between those of Clauses 2 and 3 of Section 17 of the same Act. The Government of India hold that there is no such conflict, and that the question whether a particular document falls under the provisions of Section 18 or under those of 17, can be ascertained by the application in each case of the following rules:—

(*a*) Whenever a question arises as to whether the registration of a particular document mentioned in Section 18 (other than a decree or order of Court), which relates to immovable property of the value of Rs. 100 and upwards, is compulsory or optional, it must be solved by construing such document, and ascertaining by means of such construction whether it is an instrument described either in Clause 2 or Clause 3 of Section 17 of the Act, and if it be an instrument answering the description contained in either of the last mentioned clauses, its registration will be compulsory. The provisions of Clause 7, Section 18, are only applicable to documents relating to immovable property of the value of Rs. 100 and upwards which do not come within the scope of Clauses 2 and 3 of Section 17.

(*b*) A document merely creating a right to obtain another document which will. when executed, create, assign, limit, or extinguish any right, title or interest to or in immovable property of the value of Rs. 100 and upwards, does not fall within Section 17.

The following (amongst other instances) come within rule (*b*).

1. A contract for the sale of immovable property of the value of Rs. 100 and upwards.
2. An agreement to give a mortgage of immovable property of the value of Rs. 100 and upwards, following upon a previous deposit of title-deeds creating an equitable mortgae of the same property.
3. An agreement to deposit within a specified time title-deeds as security for a loan and to execute a formal document to carry out the mortgage intended to be created.

2. It has been ascertained that the above rules represent the intentions of the framers of the law. The second rule is, moreover, in conformity with decisions already given by the High Court of Calcutta. The Officers of the Registration Department should accordingly be instructed to take for their guidance the rules above laid down.

Contribution towards the education of the people of Bangalore.

5. Read letter No. 1926—378, dated 15th June 1874, from the Secretary to the Chief Commissioner, General Department, requesting a report on the subject of the Municipality contributing towards the education of the people of Bangalore, the consideration of which letter was deferred at the last meeting pending receipt of information applied for from the President, Madras Municipal Commission.

Resolution —The Commissioners would beg to point out that, while many modes of taxation and sources of raising revenue are available to the Madras Municipality, and in fact to all the Municipalities now established in Southern India, this Municipality is greatly restricted in these respects, and that the income derived from the only two modes of taxation at present sanctioned, is practically insufficient to provide funds for the carrying out of the conservancy, lighting, up-keep of roads, additional subsidiary drainage, and other sanitary works so greatly needed for the improvement of the station; they would respectfully submit therefore that if the Municipality is now expected to contribute towards the education of the people of Bangalore or to the support of hospitals, it will be absolutely necessary to sanction the levy of some other or probably all of the taxes sanctioned by the Regulations. The Commissioners are not aware of the manner in which the expenditure of the local cess funds is regulated, but they believe that sufficient funds are raised locally from this source to support the several charitable institutions as well as the elementary schools established in the station.

Mr. J. Higginbotham's resignation of the appointment of Municipal Commissioner No. 6 Division.

6. Read letter dated 10th August 1874, from J. Higginbotham, Esq., resigning the appointment of Municipal Commissioner No. 6 Division consequent on his leaving the station.

Resolution.—In accepting Mr. Higginbotham's resignation of his appointment of Municipal Commissioner No. 6 District, the cause of which they sincerely regret, the Commissioners would wish to place on

record an expression of their appreciation of the valuable services rendered to the Municipality by Mr. Higginbotham while a Commissioner.

Proposed levy of an annual license fee on owners of tanneries or places used for boiling offal or blood.

7. Read report of Committee on the subject of levy of annual license fees on the tanneries as resolved at the Board's last meeting.

Resolved.—That this proposal stand over for the present, as the question of the tanneries is now under the consideration of the local and Military authorities.

Proposed works for 1875—76.

8 Read report by the Committee on the selection of works for insertion in the Budget for 1875—76, as resolved at the Board's last meeting.

Resolved.—That the amended list of works be approved of and that the Municipal Executive Engineer be directed to submit plans and estimates for the same for entry in the Budget for 1875—76.

Tenders for lighting the Cantonment of Bangalore.

9. Read report of Committee on the tenders received for lighting the Cantonment of Bangalore with kerosine oil.

Resolution.—The Commissioners approve of the report of the Committee and sanction the contract being given to A. Nanjappa and brothers, but as his tender was for keeping the lamps burning from 6 P. M., till midnight they resolve that the contract now to be entered into shall embody conditions for the lamps being kept lighted till 2 A. M., and that the rate as now tendered be proportionately increased.

Letter signed by the Right Revd. Doctor J. A. Chevalier. V. A. of Mysore, and Mr. W. Dalton, soliciting the exemption of assessment fixed on houses Nos. 15 *and* 16, *Wood Street and* 7 *Alfred Strect belonging to the late Mr. Welsh.*

10. Read letter No. 10, dated 4th instant from the Right Rev. Doctor J. A. Chevalier, V. A. of Mysore, and Mr. W. Dalton on behalf of the widow and orphans of the late Mr. Welsh, soliciting the exemption of assessment fixed on houses Nos. 15 and 16, Wood Street, Shule, and No. 7, Alfred Street, Richmond Town.

Resolution.—The Commissioners regret extremely their inability to accede to the request now made by the Right Revd. Doctor J. A. Chevalier, V. A. of Mysore and Mr. Dalton, but they consider that any exemption on any grounds whatever is entirely opposed to the spirit of the Regulations, and would, if granted, form a very bad precedent.

The Hymns of the Rig-Veda, in the Samhita and Pada Text, by Professor F. Max Müller, M. A., in two Volumes.—*Price. Rs.* 24; *packing and postage, Re.* 1—12.

*** The Rig-Veda, the oldest book of Indian literature, has very properly been made one of the principal class-books for those who study Sanskrit in the Schools and Colleges in India, and though at present a scholar-like knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammars and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar, who cannot construe the hymns of the ancient Rishis of his country.—*Extract from Preface.*

SEASON REPORTS FOR THE MONTH OF SEPTEMBER 1874.

Mysore District.

Rain.—The weather during the month was cloudy, and slight showers of rain fell in all the taluks of the District. The quantity gauged at Mysore was 3 inches and 56½ cents. Heavy rain is much needed to fill the tanks round Mysore. The season has been so favorable that the ryots have been able to cultivate every acre of land in their holdings. In addition to lands assessed at Rs. 6,064—0—9 which have been taken up in previous months of this year, lands assessed at Rs. 1,071—15—3 were taken up in the month under report.

Crops.—Horse-gram, Bengal-gram, green and black-gram have been sown. Fine crops of jola, gid-ragi and harka have been reaped. The crops in the Mandya and Maddur Taluks have suffered slight damage by the excessive rains, whilst those in the Gundlupet Taluk are withering from want of rain. The crops in the rest of the District are however reported to be flourishing.

Health.—The public health was not so good as in the month previous. Fevers were more prevalent. The casualties from this and other causes numbered 712.

Cattle.—The losses of cattle and sheep numbered 1,376 head.

Prices.—Prices continue stationary. 1st sort rice is sold in Mysore at 10 seers, 2nd sort at 11 seers, ragi at 27 seers, gram at 18 seers and dál at 8 seers for the rupee.

W. HILL,
Offg. Dy. Commr.

Shimoga District.

Rain.—The total fall of rain at the taluk head-quarters of the District during the month was as follows:—

		Inches	Cents.			Inches.	Cents.
Shimoga	..	6	35¾	Sorab	.. ..	7	5
Channagiri	..	6	23	Ságar	.. ..	6	65
Honnali	..	3	50	Nagar	.. ..	10	98
Shikarpur	..	2	50	Kavaledurga	.. ..	8	2
Anantapur	..	6	85				

Crops.—Horse-gram, ragi and castor-oil seeds were sown in the Maidan Taluks; jola and castor-oil seeds that were sown in the Honnali Taluk were reported to have been damaged in some places by insects. With the exception of arecanut, which is reported to be injured by koleroga (rot) from excess of rain, all other standing crops were in good condition in the Malnad Taluks. In the Kavaledurga Taluk the arecanut crop was being gathered.

Health.—Two hundred and sixty-nine deaths were reported from fever and cold, and other causes 197—total 466, against 549 in the month previous. Births registered were 425, against 541 of the preceding month.

Cattle.—The mortality amongst cattle was 867, of which 151 were killed by wild beasts.

Prices.—Stationary.

A. J. BRUCE,
Offg. Dy. Commr.

Kadur District.

Weather.—There was a sufficient fall of rain during the month, being partly beneficial to the growing crops, but somewhat injurious to those ripening, such as ragi, coriander, &c. The following table furnishes the readings of the thermometer and rain-fall as recorded at the Observatory at District head-quarters for this and the previous months as contrasted with the month of September last year.

August—1874,	*Thermometer* at 9·30 A. M.	72·24,	at 3·30 P. M.	74·3,	*Rain*,	1 inch	99 cents.
September	„	„	„	72·11,	„	74·11	„	3 inches 66 „
„	1873,	„	„	73·22,	„	74·15	„	2 „ 14¼ „

Crops.—The state of the crops is good, but the rain-fall of this month was not useful to some crops, such as arecanut, coffee and dry crops. The supari gardens in the Koppa and Lakvalli Taluks continue to suffer from the attack of "*Koleroga*" and by an ill chance the crop elsewhere is reported to suffer from unseasonable falls of rain. The occurrence of two eclipses this year being ascribed as another reason for the badness of the crop. The tobacco and chilly crops in the Banavar Taluk are spoilt from the excess of rain water.

Health.—The health of the District has not been on the whole very satisfactory; fever existed in the Tarikere and Banavar Taluks, and small-pox in those of Kadur, Vastara and Chikmagalur. The total deaths from small-pox in this month amount to 12, against 11 in August, while the total number of deaths from all causes was 337, against 319 in the preceding month and 285 in September 1873.

Cattle.—The cattle in the Vastara Taluk suffer from the murrain of the "*Dodjadu*" and "*Kalvara* and *Bayijvara*" types, while the latter prevails to some extent in the Chikmagalur and Banavar Taluks also. The loss from the attacks of wild beasts was 137, against 145 in August last. The total mortality from all causes amongst cattle amounts to 1,007, against 1,244 in last month and 2,651 in September of last year.

The Hymns of the Rig-Veda, in the Samhita and Pada Text, by Professor F. Max Müller, M. A., in two Volumes.—*Price, Rs.* 24; *packing and postage, Re.* 1—12.

***The Rig-Veda, the oldest book of Indian literature, has very properly been made one of the principal class-books for those who study Sanskrit in the Schools and Colleges in India, and though at present a scholar-like knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammars and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar, who cannot construe the hymns of the ancient Rishis of his country.—*Extract from Preface.*

* *The Rig-Veda, the oldest book of Indian literature, has very properly been made one of the principal class-books for those who study Sanskrit in the Schools and Colleges in India, and though at present a scholar-like knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammars and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar, who cannot construe the hymns of the ancient Rishis of his country.—*Extract from Preface.*

During the month under report, a disease broke out among cattle in the Nagamangala Taluk called by three distinct names, *viz.*, Shivalige, Shivangi and Tyavale. The diagnosis given of the disease is as follows. Pustules first appear on all four legs; after a day or two they spread all over the body; and, on being licked by the rough tongue of the animal, they form into regular ulcers which ultimately breed maggots. The disease proves fatal in 15 or 20 days, 3 or 4 days prior to which the affected animal refuses both fodder and water. This disease is being treated by a Gauda of Kebbe Koppal in the Maddur Taluk of the Mysore District, who administers some vegetable compound both internally and externally; and it is said that his treatment has been so successful that in some instances a cure has been effected in three days.

"The Rig-Veda, the oldest book of Indian literature, has very properly been made one of the principal class-books for those who study Sanskrit in the Schools and Colleges in India, and though at present a scholar-like knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammars and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar, who cannot construe the hymns of the ancient Rishis of his country.—*Extract from Preface.*

To—The District Treasury Officers and Amildars, Circular No. 1166, *dated* 13*th November* 1874.

In supersession of the last clause of Circular No. 1125, dated 15th June 1874, the Deputy Accountant General has the honor to request that when it becomes necessary for a Taluk Amildar to realize a sum of money which is due to a Court or Public Office in another taluk, it may be entered with full particulars under a new sub-head under Local Remittances to be styled "*No.* 10, *Sums realized by one Taluk on account of another*". On receipt of the Amildar's report of realization and his daily account shewing the credit, the District Treasury Officer will issue a cheque on the Taluk Treasury where the money is to be paid, noting the item of credit in the cheque margin. SEASON REPORTS FOR THE MONTH OF OCTOBER 1874.

Kadur District.

Weather.—There was a sufficient fall of rain during the month, and almost all the tanks have received good supplies of water.

The following table furnishes the readings of the thermometer and rain-fall as recorded at the Observatory at District head-quarters for this and the previous months, as contrasted with the month of October last year.

September	1874,	*Thermometer* at 9·30 A. M.	72·11,	at 3·30 P. M.	74·11,	*Rain*,	3	inches	66	cents.
October	,,	,,	,,	23·48,	,,	23·95,	,,	7	,,	85	,,
,,	1873.	,,	,,	73·16,	,,	72·10,	,,	13	,,	65	,,

Crops.—The state of the crops is generally good both in the Maidan and Malnad Taluks, but in some parts of the Malnad Taluks, *viz.*, in Lakvalli, and Koppa the crops of supari, coffee, &c., are bad, by the unseasonable and heavy fall of rain in last month, the former continuing to suffer from the attack of "*Kolcroga*;" besides tobacco and chillies have been damaged by the excessive fall of rain, and some crops, such as cholam in Kadur Taluk, and dod-ragi in the Chikmagalur Taluk have been harvested during the month.

Health.—The health of the District has not been very satisfactory though there was a slight improvement on the whole. Fever exists in Tarikere, Kadur and Banavar, and an illness called *Mankroga* exists in the Sivini Magni of Tarikere Taluk and small-pox in those of Kadur and Banavar. The mortality from small-pox in this month has attained the figure of 15, against 12 in September, while the total number of deaths from all causes was 280, against 337 in the preceding month and 299 in October 1873.

Cattle.—The cattle in the Kadur, Tarikere, Vastara, Chikmagalur and Banavar Taluks suffer from murrain of the "*Dodroga*" and "*Kaljvara, Bayijvara*" types, the total loss from all causes amongst cattle amounts to 899, against 1,007 in last month and 1,940 in October of last year. This shews a rather satisfactory result.

***The Rig-Veda, the oldest book of Indian literature, has very properly been made one of the principal class-books for those who study Sanskrit in the Schools and Colleges in India, and though at present a scholar-like knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammars and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar, who cannot construe the hymns of the ancient Rishis of his country.—*Extract from Preface.*

***The Rig-Veda, the oldest book of Indian literature, has very properly been made one of the principal class-books for those who study Sanskrit in the Schools and Colleges in India, and though at present a scholar-like knowledge of the Vedic hymns is in the examinations required of the more advanced students only, yet, as soon as editions, translations, grammars and dictionaries shall have rendered the study of these ancient documents more accessible, I doubt not that the time will come when no one in India will call himself a Sanskrit scholar, who cannot construe the hymns of the ancient Rishis of his country.—*Extract from Preface.*

CIRCULAR ORDER.

No. 15. *The 6th October* 1874.

The Judicial Commissioner has reason to believe that considerable inconvenience to parties and witnesses in session cases, and expense to the Government in the matter of Police escort, can be avoided by Session Judges trying the cases committed by the Magistracy of each District, at the head-quarters of such District, at certain fixed times in the year. Such a system of holding in each District, periodically, a session for the trial of the criminal cases of that District, is moreover desirable, not only on the ground of convenience to the parties concerned, but also in the interest of justice generally, and it seems likely neither to entail any great personal inconvenience on the Session Judges themselves, nor in any material degree to interfere with the discharge of their executive duties. With the concurrence of the Chief Commissioner, therefore, the following instructions are issued for the guidance of Session Judges and Magistrates, and shall be brought into operation from 1st January 1875.

I. Every Session Judge shall hold a quarterly session at the head-quarters of every District within his jurisdiction, and shall, during such session, try and dispose of all such cases as may have been committed to him for trial by the Magistrates in that District. Provided that in addition to the quarterly session above provided for, a Session Judge shall always have power to hold sessions at the Division head-quarters, as often as may be necessary for the disposal of cases committed by the Magistrates in the head-quarter District, due notice of the holding of such special sessions being given to the Magistrates and through them to the parties and witnesses concerned.

II. The Session shall commence on the first Monday of the month, and shall last as long as may be necessary, for the disposal of all cases in which the records have been received and the parties are present, on or before the first day of the session. When the first Monday is an authorized holiday, the session shall commence on the first Court day after such Monday.

III. The months during which the session shall be held for the different Districts in the Province may be as shewn below :—

NUNDYDROOG DIVISION.—1. *Bangalore.*—January, April, July, October.
2. *Kolar.*—February, May, August, November.
3. *Tumkur.*—March, June, September, December.

NAGAR DIVISION.— 4. *Shimoga.*—January, April, July, October.
5. *Kadur.*—February, May, August, November.
6. *Chitaldroog.*—March, June, September, December.

ASHTAGRAM DIVISION.— 7. *Mysore.*—January, April, July, October.
8. *Hassan.*—February, May, August, November.

NOTE.—The Ashtagram Commissioner may hold Coorg Session in the months of March, June, September and December.

IV. Whenever the Session Judge is of opinion that owing to any special reason, any particular case or class of cases may with advantage be tried at a place other than the District head-quarters, permission to try such cases at such places should previously be obtained by application to the Judicial Commissioner.

V. Whenever the Session Judge is prevented by any unavoidable circumstance from reaching the District-head quarters at the time appointed for the commencement of the session, the same shall be commenced immediately on his arrival.

VI. It shall be the duty of all Magisterial Officers holding preliminary enquiries in cases triable by the Court of Session, to complete the enquiries and to submit the Proceedings to the Court of Session in such time as will enable the Judge to try the case at the next session at the District head-quarters. They should complete the enquiries before the commencement of the quarterly session, so as to avoid, as far as possible, any long detention of prisoners awaiting trial. The commitments should be made in such time as will enable the parties to reach the District head-quarters before the first day of session. The Judicial Commissioner trusts that these rules will be strictly adhered to, and that there will, therefore, be no occasion for any great delay in the trial of persons committed to the Court of Session.

VII. At the conclusion of each trial, the Session Judge must issue the necessary warrants for the execution of any sentences which may have been passed by him. In the case of sentences which, under the rules in force, require to be executed at the Jail at the head-quarters of the Division, the warrants must be addressed to the Officer in charge of such Jail, and it will be the duty of the Senior Magisterial Officer at the District head-quarters to arrange for the safe escort of the prisoners in such cases to the Jail at the Division head-quarters.

VIII. An important end which the Judicial Commissioner has in view, in directing that quarterly session may be held at District head-quarters, is, to enable the Session Judges to secure, at the trial, the services, as assessors, of intelligent men with local experience and a knowledge of the manners and customs of the people. In order to attain this end, every Deputy Commissioner must, after due and careful consideration, prepare a list of assessors in accordance with the provisions of Section 400 of the Criminal Procedure Code, a copy of such list being sent as soon as possible to the Session Judge, who may add to it the names of any persons qualified in his opinion to serve as assessors. The list, with the additions, if any, made by the Judge, must then be duly published as required by Section 401, and after this has been done the Session Judge must sit with the Deputy Commissioner at the District head-quarters and revise the list, as required by Section 402. When the list has been framed, published and revised in the manner above pointed out, copies of it, signed by the Deputy Commissioner and the Session Judge, must be posted up in the Courts of the District Magistrate and the Commissioner. A copy should also be submitted to the Judicial Commissioner for his information.

IX. The Judicial Commissioner requests the special attention of Deputy Commissioners and Session Judges to the great importance of the first careful preparation, and the subsequent thorough scrutiny of the lists of assessors. A careful selection of men qualified by their intelligence and character to discharge the responsible duty of assisting at a criminal trial will, the Judicial Commissioner believes, secure to our Criminal Courts the sympathy and respect of the public, and impart a tone to the whole Criminal Administration.

X. Should it not be possible in the case of any District to secure, within a distance of ten miles from the district head-quarters, a sufficient number of men qualified to serve as assessors, the Deputy Commissioner must represent the matter, through this Office, for the orders of the Chief Commissioner under Section 400 of the Criminal Procedure Code.

1. Doubts having been entertained as to the procedure to be adopted when a Registering Officer in Mysore has occasion to issue a summons or warrant upon a person residing within the jurisdiction of the Madras Presidency, the Inspector General of Registration, having consulted the Judicial Commissioner on the subject, has the honor to point out that, under the **orders of the Government of Madras as contained in the rules framed under Section 69 of the Registration Act, the application for the purpose should be made to the *Sub-Magistrate* of the place within whose jurisdiction the person may be residing.
